LOGOMARK

Our logo is formed by merging three core elements — the yarn ball, the location pin, and the crochet hook. Together, they symbolize Crochovia as a hub for creativity, community, and craftsmanship.

Yarn Ball

Represents the core product, highlighting the brand's focus on crochet.

Location Pin

Marks Crochovia as a hub for crochet Lovers and handcrafted creations.

Crochet Hook

A nod to the crochet process, Reinforcing the brand's identity.

Logo Mark

OUR LOGO

The Crochovia logo is composed of an logomark and a logotype set in Gravitass Bold, tagline in Bahnschrift Semi bold. The horizontal logo is the primary logo and should be used in most instances. Always use the logo files provided in the logo pack. Do not re-create.

LOGO VARIATIONS

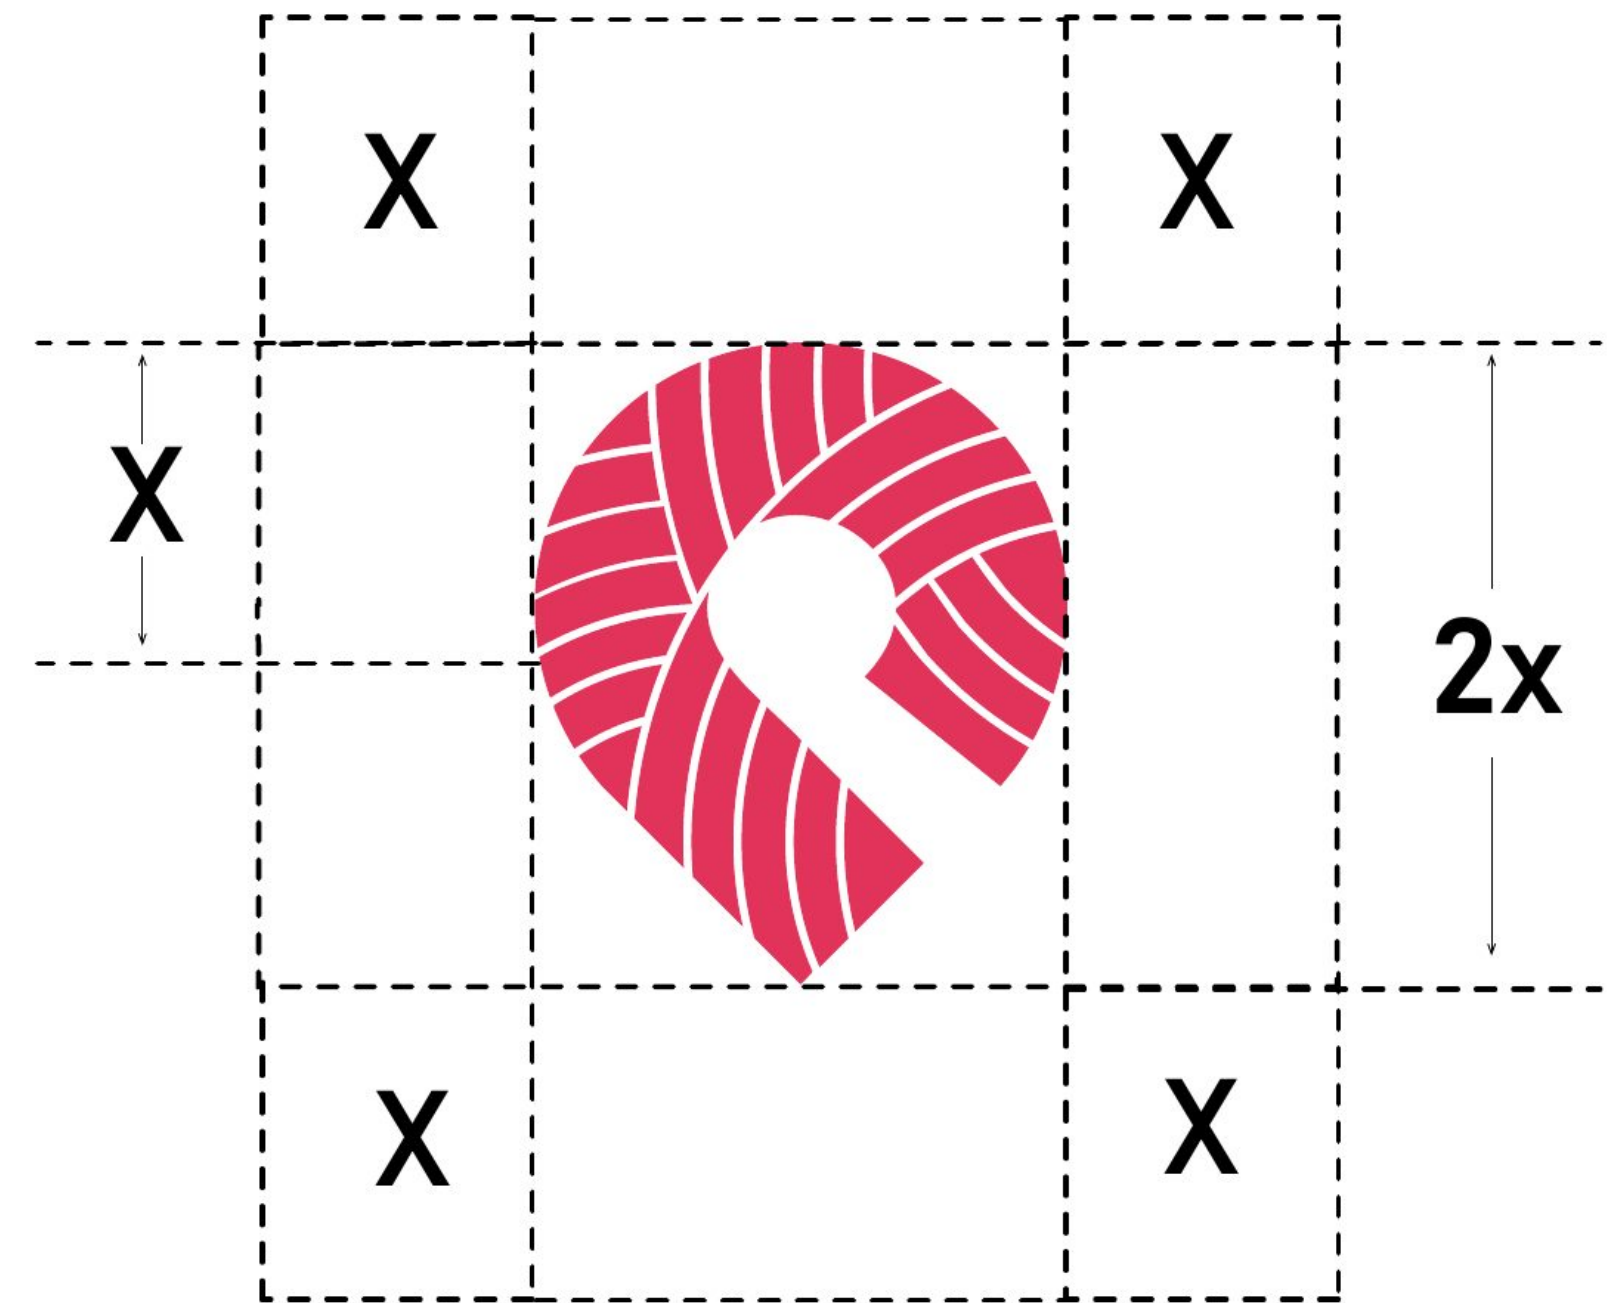

The logomark and logotype have very specific placement relationships within each logo. The alignments create a solid lockup and allow for other graphic elements to align with them. Knowing these spacial relationships is critical for maintaining consistency across the brand.

Primary Logo		Logo Sizes					Logo Mark	
							Wordmark	crochovia
							Tagline	Stitching Dreams
Secondary Logo		Favicon(px)						

CLEAR SPACE

Ensure there is adequate space between the logo and surrounding elements. For the horizontal logo, the clear space around it should always be equal to Half of the height of the logo mark and no text, images, or other graphic elements should encroach upon this area.

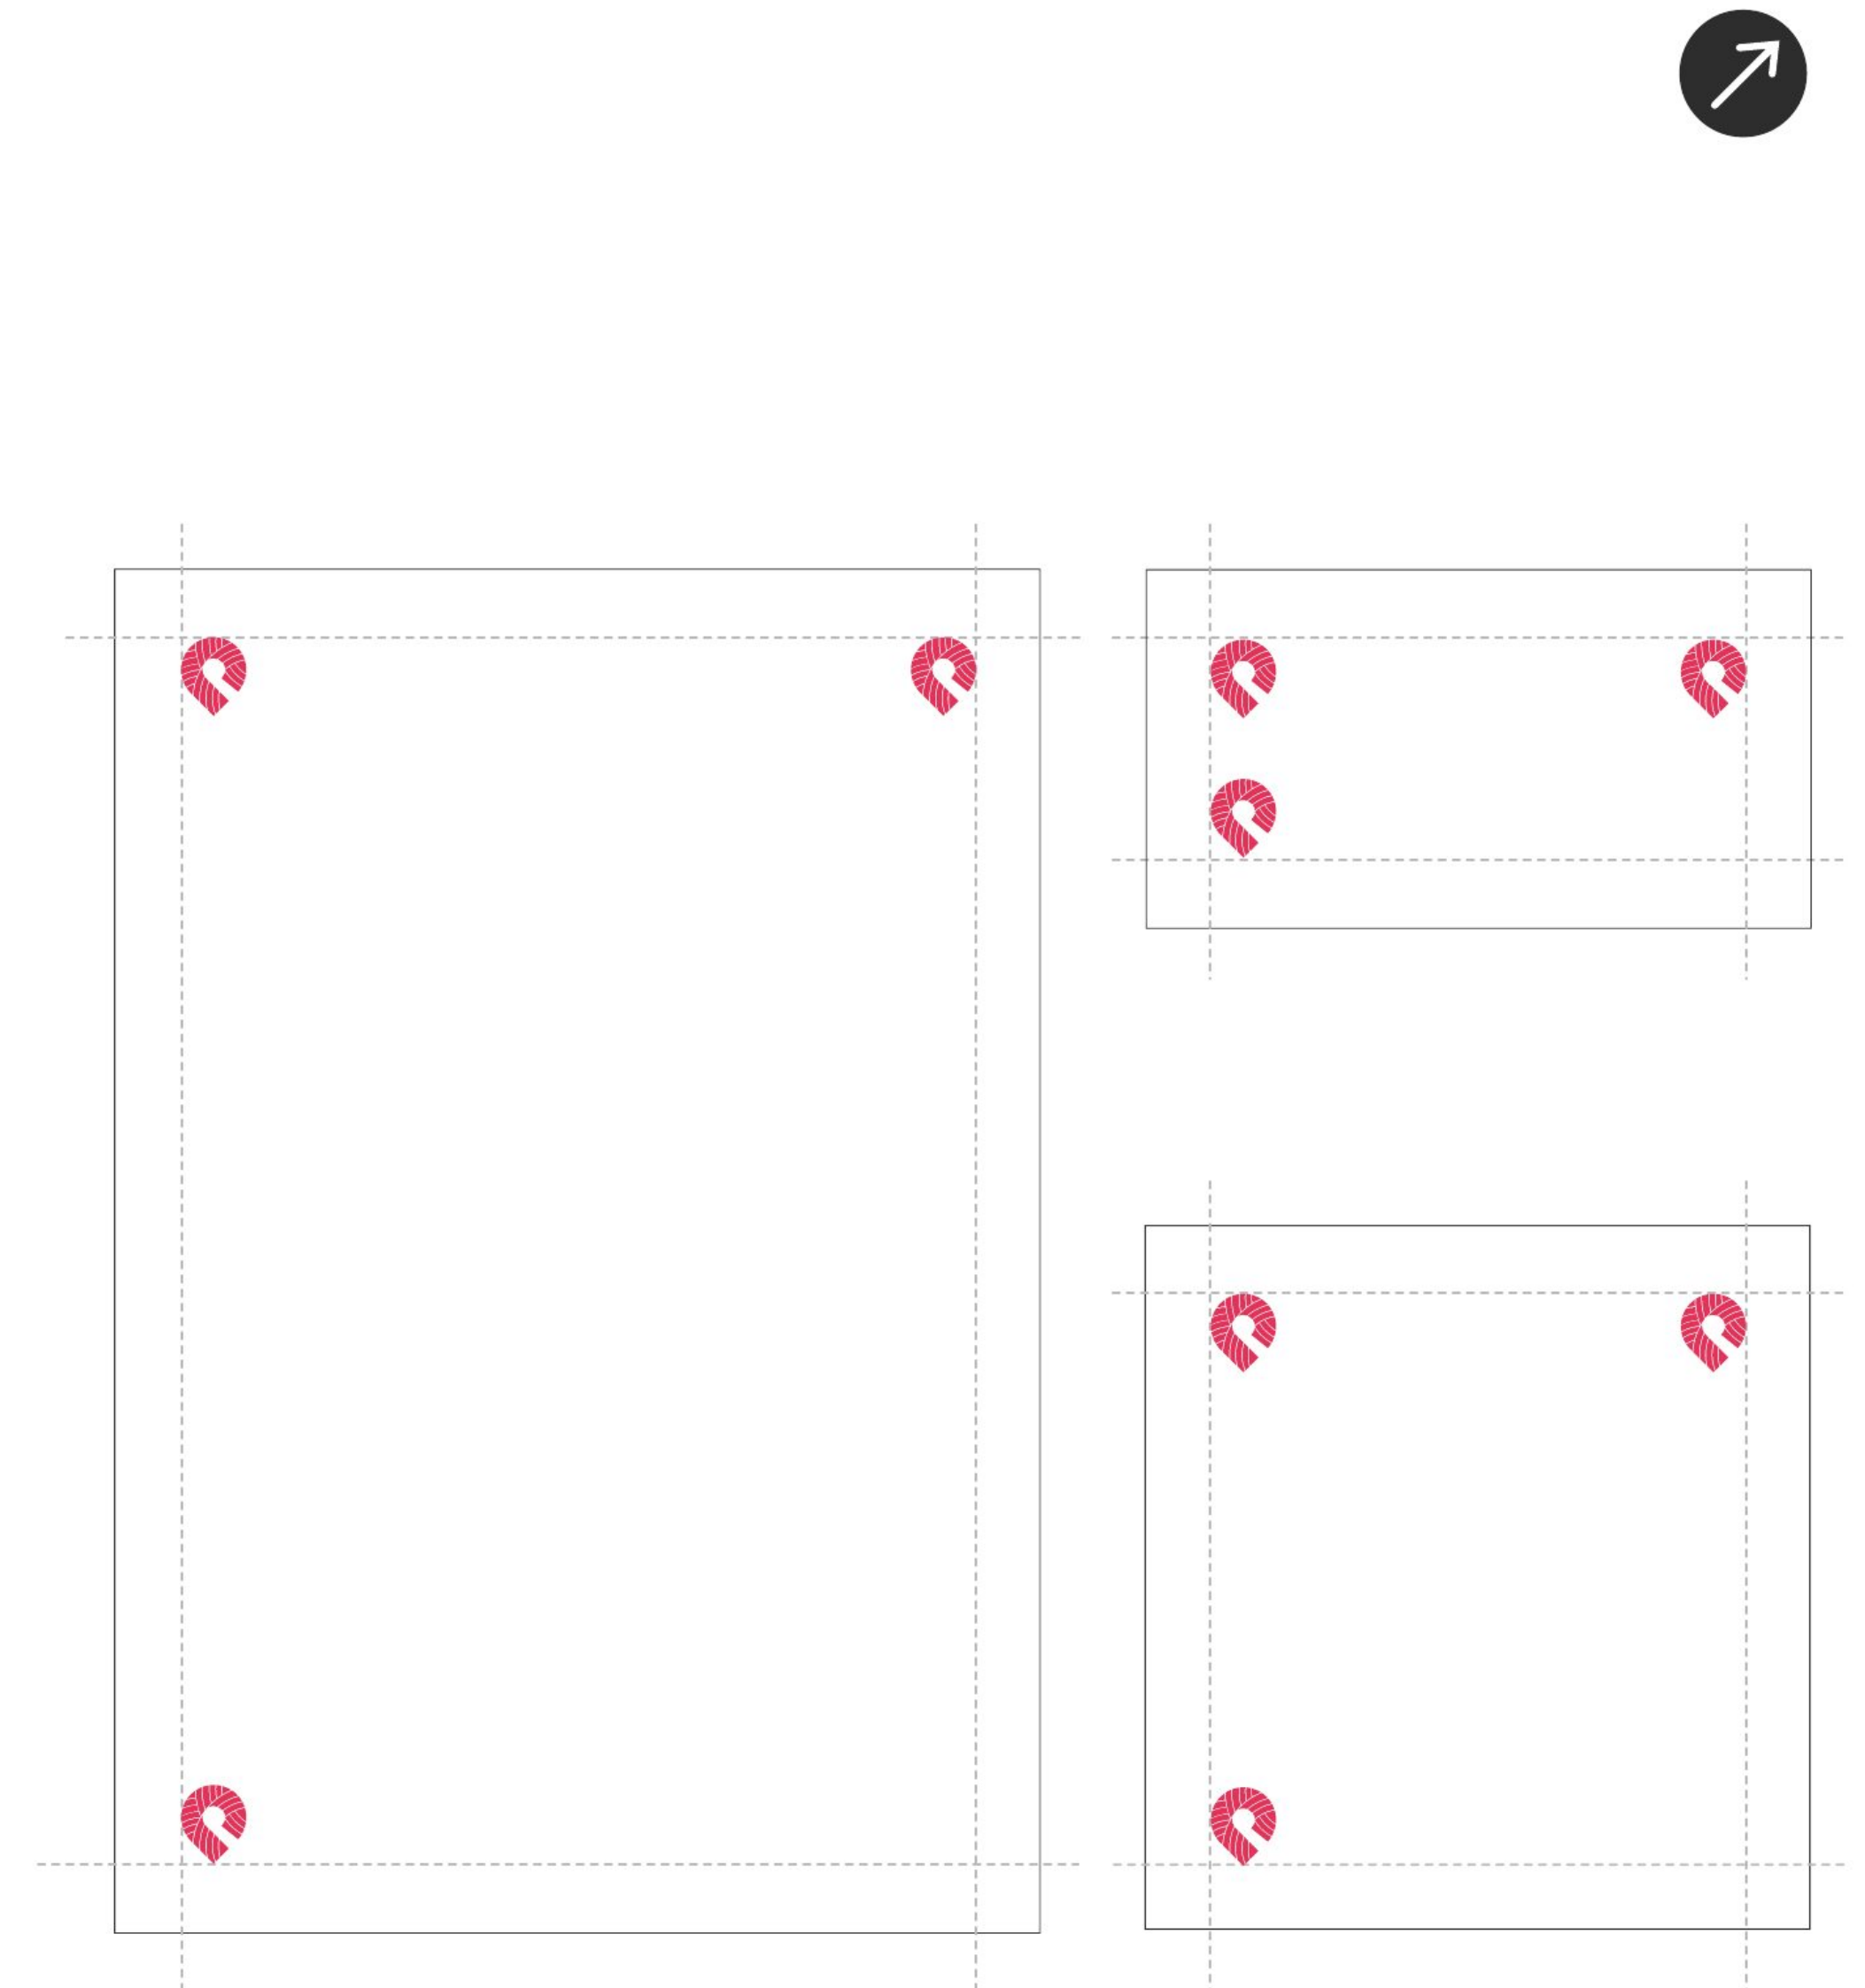

PLACEMENT

Regardless of communication size or dimension, the Logo can only ever be placed in three locations. This keeps Logo placement simple and consistent, while allowing enough flexibility to accommodate our dynamic graphic system. Please keep in mind the Logo exclusion zone when placing the Logo in a corner.

In no particular order, the placement options are:

1. Top left corner
2. Top right corner
3. Bottom right corner

MISUSE

There are a number of ways the Crochovia logo could be misused. Any misuse of the logo, no matter how small, diminishes the effectiveness of the logo and compromises the credibility of the brand. The examples shown demonstrate a few of the many possible ways the logo must never be reproduced.

Do not change anything in logo

Do not use unapproved versions

Do not rotate or flip the logo

Do not alter the logo colors

Do not change the font style

Do not add effects or shadows
