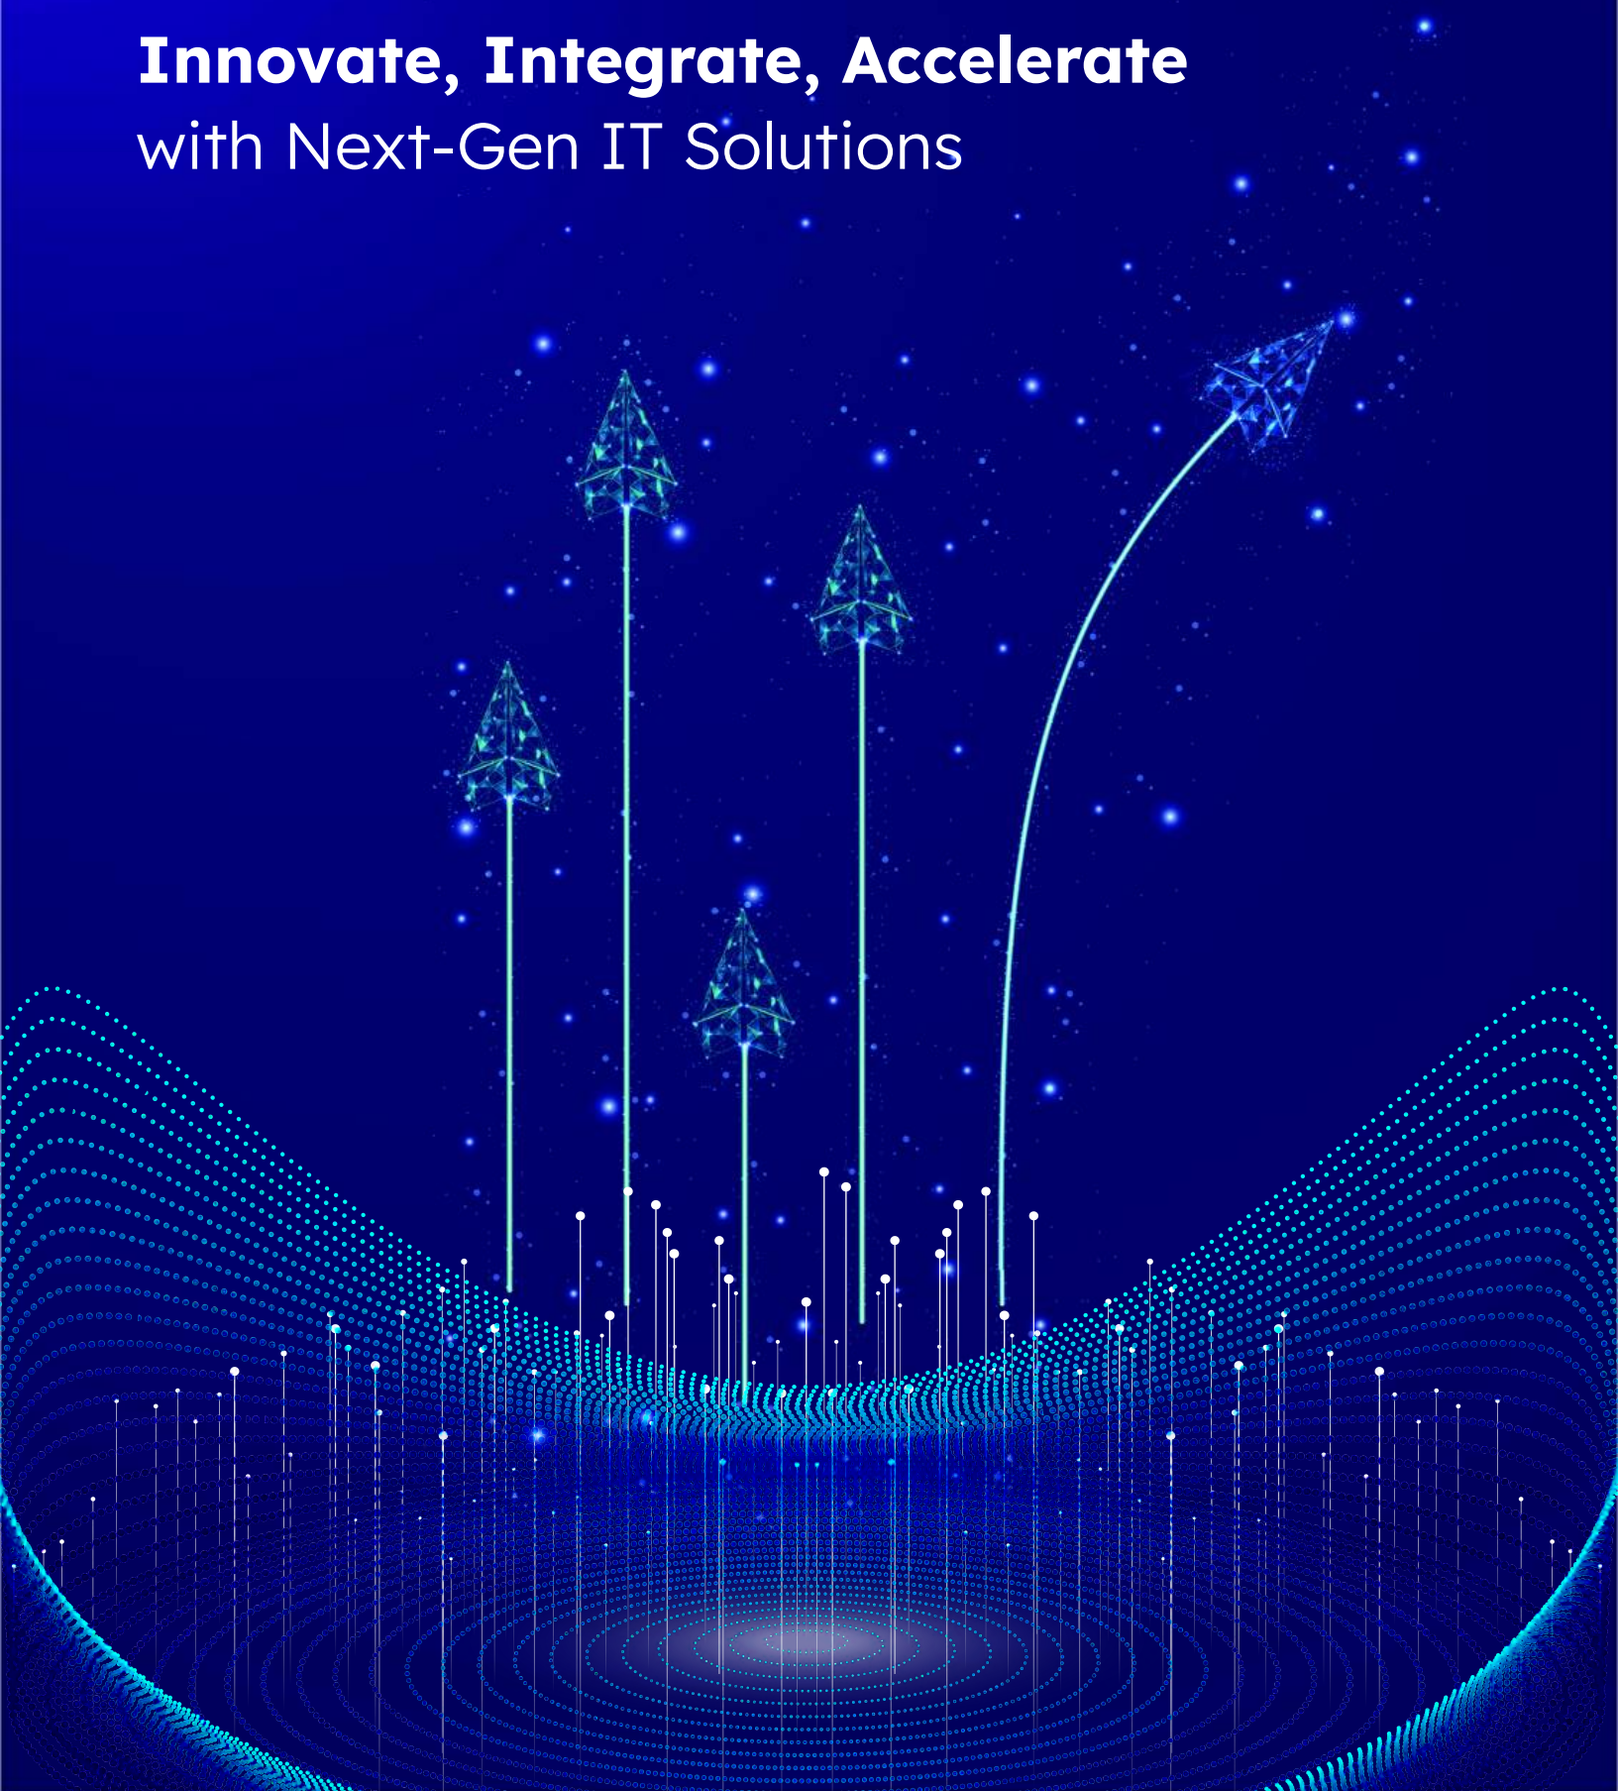
Strong Business Solutions

Innovate, Integrate, Accelerate with Next-Gen IT Solutions



About us

Strong Business Solutions, originally founded in 2018 as Strong Point Solutions, embarked on a transformative journey by acquiring Tespa Infotech Private Limited in 2019, a company with a rich legacy since 2007. In 2020, we rebranded to Strong Business Solutions Pvt Ltd, marking a new era of innovative business solutions starting from 2021. We aim to be the catalyst for transformative growth in every business we touch, fostering a world where technology and strategy converge to create unparalleled business value.

Mission

To empower SMEs by providing innovative, cost-effective, and scalable IT solutions that drive growth, efficiency, and digital transformation.

Vision

To be the leading provider of IT solutions for SMEs globally, recognized for our commitment to innovation, excellence, and sustainable business growth.

Values

Innovation: Continuously exploring new tech to provide cutting-edge solutions.
Integrity: Building trust with transparency and ethical practices.
Customer Focus: Tailoring solutions to meet the unique needs of each SME.
Excellence: Striving for excellence in every solution delivered.

Services

Core IT Services Offered

Enterprise Business Solutions:

Implementation and support for SAP Business One, SAP S/4 HANA Public Cloud, and Oracle Netsuite, designed specifically for SMEs.

Cloud Services:

Cloud hosting, disaster recovery, managed services, and leveraging AI and ML for enhanced performance and security.

Strong Development Services:

Custom mobile and web app development to meet specific business needs.

Benefits for SMEs

Cost-Effectiveness: Tailored to fit SME budgets while ensuring high-quality outcomes.

Quick Turnaround: Leveraging technology and experience to deliver solutions swiftly.

Scalability: Solutions that grow with your business, ensuring long-term relevance.

AI Integration

Predictive analytics

Proactively identify trends, mitigate risks, and optimize decision-making.

Machine learning models

Continuously learn from data to improve business outcomes.

Intelligent automation

Streamline operations (like bank reconciliation, quality control) for greater efficiency and cost savings.

AI chatbots

Enhance sales ordering with a seamless, personalized customer experience.

FAQs

1. **Which company size in terms of turnover or workforce is suitable for technology adoption?**

   Businesses of all sizes can reap the benefits of technology adoption. If you're facing operational challenges or want to streamline processes, technology can provide the answer. Solutions are tailored to scale with your company, regardless of its workforce or revenue.

2. **Do we need to appoint an IT resource or a team to continue using these solutions?**

   Our solutions are designed for seamless integration and ease of use. We prioritize automation and intuitive interfaces, minimizing the need for dedicated IT personnel. Rest assured, our exceptional support team is always available to ensure your business operations run smoothly and efficiently.

3. We are successfully running with an accounting solution, why invest in advanced technologies?

   While accounting solutions are essential, modern businesses require data-driven insights for strategic decision-making. Our advanced technologies provide a deeper understanding of your operations, highlighting areas for improvement and optimization. Automation enhances efficiency and customer responsiveness, giving you a competitive edge in the market.
