PERSONALISED TOTAL KNEE REPLACEMENT

PERFIT-R KNEE SYSTEM

PERFIT-R

Your Goals

Each and every person in the world has a unique walk. The goal of our PERFIT-R system of Personalised Total Knee Replacement is to return our patients to their original walk. Your walk should always remain unique!

Now that your surgery is over, it is important to rehabilitate your operated knee. With proper rehabilitation involving knee mobility and stability, almost all our patients can achieve the following goals in the following timeline.

30 Days
After Surgery

By the end of 1st month you will be able to achieve the following Activities of Daily Living (ADL).

- Bathing by yourself
- Dressing by yourself
- Resume your religious practises by going to your place of worship
- Getting in & out of bed or chair
- Walking without support
- Able to access the restroom with ease
- Stair climbing with support

60 Days
After Surgery

By the end of 2nd month post-operatively you will be able to achieve the following Activities of Daily Living (ADL).

- Working in the kitchen at ease
- Stair climbing up & down without support
- Single leg balance
- Getting into and out of the car and travelling a short distance

90 Days
After Surgery

By 3rd month post-operatively you will be able to do the following:

Indulge in gardening, swimming, dancing, golf and/or all your favourite activity

Your walk will be perfect

Travelling a long distance by air or car

Balance walking on uneven surfaces

Activities to be avoided before your 90-day check-up:

- Avoid floor-sitting
- Avoid contact sports
- Avoid impact exercises
